Personal Information

- Nationality: Bangladesh
- Date of Birth: 15/05/1998
- Father's Name: Sree Ashok Kumar Mogumder
- Mother's Name: Taposi Rani Majumder
- Religion: Hinduism
- Home Town: Magura
- Current City: Dhaka
- Marital Status: Unmarried

Summary

- Highly motivated and detail-oriented Software Engineer with strong expertise in C#, .NET Core, Blazor, REST API development, SQL databases, and modern web technologies. Skilled in building scalable and maintainable applications following clean-code and industry best practices.

Education

Daffodil International University — *Dhaka, Bangladesh*
Bachelor of Science in Software Engineering — *2020 – 2024*
CGPA: 3.75

Govt. H.S.S. College, Magura — *Magura, Bangladesh*
Higher Secondary Certificate (HSC) — *2018 – 2020*
GPA: 4.67

Hazipur Secondary School — *Magura, Bangladesh*
Secondary School Certificate (SSC) — *2016 – 2018*
GPA: 5.00

Experience

Junior Software Developer (Intern) — *Dhaka, Bangladesh*
2024 – 2025
Worked on backend API development, SQL optimization, and UI improvements in Agile environment.

Freelance Web Developer — *Remote / Bangladesh*
2022 – 2024
Developed responsive websites, dashboards and business systems for multiple clients.

Skills

- **Languages:** C, C++, Java, Python, JavaScript, C#
- **Backend / Frameworks:** .NET Core, Blazor, REST API, Entity Framework, LINQ
- **Frontend:** HTML, CSS, Bootstrap, ReactJS, AngularJS
- **Database:** SQL, MySQL, MSSQL
- **Tools:** Git, GitHub, Visual Studio, VS Code, Azure

Projects

- **Inventory Management System (.NET Core)**
  A complete inventory and product tracking system with authentication, role-based dashboard, REST API, and SQL database.
- **Employee Attendance & Payroll System**
  Automated attendance tracking, overtime calculation, and payroll generation.
- **Personal Portfolio Website**
  Responsive personal website to showcase skills and achievements.

Major Projects (Extended)

- **AI-Based Document Analyzer**
  Implemented intelligent document parser with extraction pipeline.
- **Hospital Management System**
  Developed appointment, billing and patient record modules.
- **E-commerce Admin Panel**
  Role-based product management dashboard with reporting.
- **Payroll Calculation Engine**
  Automated salary, overtime and leave calculation integrated with biometric data.

Extra-Curricular Activities

- District Level Champion — Computer Competition
- Volunteer at DIU Tech Carnival
- Active participant in programming contests

Technical Expertise

- .NET Core / C# Development (SOLID, Clean Architecture)
- REST API Engineering (JWT Auth, Swagger)
- Database Optimization (Stored Procedures, Indexing)
- UI Development (Bootstrap, JS Frameworks)
- Git, DevOps Basics, Azure Cloud fundamentals

Professional Achievements

- Improved API response time by 35% using optimization.
- Automated reporting reducing 10+ hours weekly workload.
- Developed reusable UI components saving 25% dev time.

Workshops & Training

- Blazor Component Development Workshop
- Microsoft Azure Fundamentals Lab
- Software Engineering Bootcamp (DIU)
- Agile/Scrum Training

References

- **Hafizul Imran**
  Assistant Professor, Department of Software Engineering
  Daffodil International University
- **Md. Shohel Arman**
  Assistant Professor, Department of Software Engineering
  Daffodil International University
- **Izaz Ahammed Tuhin**
  Lecturer, Department of Software Engineering
  Daffodil International University
